

User-Centered Analysis & Design

Exam Reference

Section	Topic	Slides	Study Guide	Quick References (QR)
Introduction	UCA vs. UT	1-26	12	Comparing Analysis and Testing Approaches
	ROI	1-29	7	Formulas for Calculating ROI
Strategy for Analysis	Components of Design Strategy	2-4	9	User-Centered Analysis and Conceptual Design
	Information sources	2-9	9	
	Stakeholder meeting	2-17	11	
User/Environment Profiling	User Groups	3-5	13	
	User Profiles	3-7	13	
	Task Profiles	3-10	14	
	Environment Profiles	3-15	14	
	Personas	3-19	15	
Data Gathering Methods	Method selection	4-5	25	Data Gathering Decision Matrix
		5-41		Studying User Population
	One-on-one Interview	4-6	16	Personal Interview Generic Interview Protocol
	User Observation (contextual inquiry)	4-32	20	
	Focus Group	5-7	21	
	JAD Session	5-9	21	
	User group meeting	5-10	22	
	Survey	5-14	22	
	Help desk and support lines	5-33	24	
	Discussion group	5-34	24	
Task Analysis and Design	Web logs	5-35	24	
	Scenarios	6-4	26	
Information Architecture	Task Analysis	6-18	27	
	Primary Nouns	7-4	33	
	Nouns to Navigation	7-26		
	Content Organization Organization Schemes	8-5	36	Information Architecture
	Labeling Systems	8-25	39	
	Card Sorting	8-28	39	
Usability Specification	Concept Sketches	9-4	42	
	Usability Criteria	9-7	42	
Summary				From Research and Planning to Conceptual Design

Section	Topic	Slides	Study Guide	Quick References (QR)
Strategy for User-Centered Design	VIMM-based Design	1-15	5	
	Focal Points of Design	1-18	5	Design is Science and Art
	Inputs to usable design	1-26		
Navigation Design	Keys to effective navigation	2-4	6	
	Basic Navigational Structures	2-21	7	Navigation Design
Applications	Primary vs. Secondary Windows	3-6	8	
	Screen Types	3-16	11	
	Screen Elements	4-4	16	
Web Sites / E-commerce	Good navigation design	5-6	20	
	Navigation Structures	5-18	21	Navigation Design
	Secondary Windows	5-31		
	Page Types	6-5	23	
	Website Page Elements	7-8	28	
	E-commerce Page Elements	7-44	35	
	Placement of Page Elements	7-71		Page Element Placement
	Home page Design	8-4	41	
Editorial Style	Guidelines	9-4	43	Editorial Style
	PET	9-31	46	
Layout	The Grid	10-10	47	Visual Design – Layout & Color
	Visual Attributes That Control Focus	10-17	48	
	Grouping: Gestalt Principles	10-25	49	
	White Space	10-32	49	
	Alternative Layouts	10-37		
Presentation Design	Typography	12-7	74	
	Font Preferences	12-10	74	
	Legibility	12-11	75	
	Color Management	12-23	78	
	Getting User Attention	12-29	79	
	Types of Graphics	12-39	81	
Interaction, Controls and Feedback	Interaction Methods	11-4	51	
	Controls	11-18	55	
	Data Entry	11-19	56	
	Action or Navigation	11-24	58	
	Selection	11-35	63	
	Error Handling	11-43	66	

Internationalization	Introduction	13-4	83	Internationalization
	Design Issues	13-11	85	
Accessibility	Types	14-4		Accessibility
	Laws	14-5		
	Assistive Technology	14-10	87	
	Guidelines	14-14	89	
	Screening Techniques	14-35	91	

Practical Usability Testing

Exam Reference

Section	Topic	Slides	Study Guide	Quick References (QR)
Introduction	Benefits	1-9	4	
	Performance vs. Non-Performance	1-14	4	
Designing a Usability Test	Types of Tests	2-5	5	
	Number of Participants	2-13	6	
	Selecting Participants	2-15	6	
	Criteria for usability issues (Performance vs. Preference)	2-19	7	
	Test Scenarios	2-20	7	
	Types of Test Data	2-23	7	
	Testing Equipment	2-28	8	
Early Prototype Tests	Types of Tests	3-7	12	
	Expectancy Test	3-8	12	
	Reverse-Card Sort	3-10	12	
	Performance Test		12	
	Visual Affordance Test	3-24	12	
	Brand Definition Test	3-26	12	
	Advanced Prototype Tests	Early vs. Advanced	4-4	13
Types of Tests		4-7	15	
Free Exploration		4-8	15	
Eye-Tracking		4-9	15	
Performance Test		4-11	15	
Remote Testing	Remote vs. In-person	6-6	22	
	Types of Remote Tests (Moderated vs. Unmoderated)	6-9	23	Remote Testing International Testing
Comparison Study	Purpose	7-4	26	
	Types (formal vs. informal)	7-5	26	
	Recommendation	7-11	26	
Live-Site Analysis	A-B Testing	8-4	27	
	Steps	8-6	27	
	Web Analytics	8-14	28	
Analysis & Reporting	1. Complete Notes	5-4	16	
	2. Summarize Findings	5-6	16	
	3. Compile & Tabulate Data	5-7	17	
	4. Analyze Findings Descriptive Statistics Inferential Statistics	5-8	17	Analyze Data
	5. Prioritize by Severity	5-16	18	
	6. Create Recommendations	5-20	19	
	7. Create Final Document or Pres	5-22	19	
	8. Follow Up	5-26	20	

Section	Topic	Slides	Study Guide
Memory	Short Term Memory	2-7	5
	Chunking Information	2-10	5
	Reconstructive Memory	2-15	6
	Memory and Neuronal Processing	2-16	7
Cognitive Processes	Schema (Mental Model)	3-5	8
	Canonic Perspective	3-12	8
	Objection Recognition	3-18	9
	Grouping	3-22	9
	Decision making	3-23	10
	Cognitive Load in Hypertext Reading	3-28	
Audio / Visual Processing	Visual Scanning	4-5	12
	Information Visualization: 2D or 3D	4-9	12
	Guiding or Disrupting Attentive Visual Processing	4-11	13
	Eye-Tracking	4-16	14
	Effect of Conversation on Detecting Changes	4-20	13
	Using Auditory Stimuli	4-22	14
Text	Attitudes Toward Books and Computers	9-25	31
	All caps vs. upper and lower	5-5	15
	Optimal Line Length	5-7	16
	Importance of Title for Text Passage	6-15	18
	Sans vs. Sans Serif	5-12	16
	Font and Background Color on Reading Text	5-17	16
	Image Quality and Reading Online	5-24	17
Design	Menu vs. Icon-Based Interfaces	6-7	18
	Organization and Labeling of Information	6-26	19
	Breadcrumbs	6-30	19
	Speech vs. Keypad	6-34	20
Usability Methods	Domain Experts	7-4	21
	Remote vs. Face-to-Face Team Interaction	7-8	21
	Data Gathering Methods for Children	7-14	22
	Automated vs. Traditional Testing	7-20	23
	Lo-fidelity vs. Hi-fidelity Prototypes	7-22	23
	Testing One Design vs. Many	7-29	24
	Concurrent Think Aloud vs. RTA	7-33	25
	Using Eye-Tracking in Usability Tests	7-40	25
E-commerce	Web-ads Target Groups	8-6	26
	Online Shopping Behavior: Mood	8-9	26
	Online Shopping Behavior: Personality Traits	8-12	27
	Online Shopping Behavior: Satisfaction Factors	8-14	27
	Online Shopping Behavior: Desired Design Traits	8-17	27
	Impact of Personalization on Decision Making	8-23	28
	Online Coupons	8-26	28

PET: Persuasion Emotion Trust	Determining Trustworthy Websites	9-6	29
	Effects of Stress	9-12	30
	Do Stories Help Build Brand Connections	9-17	
	Computer Frustration	9-33	31
	Trust Factors in Health Websites	9-37	30
Mobile / Handheld	Cell Phones: Video Calls	10-8	32
	Cell Phones: Web Browsing	10-15	33
	Usability Testing for Use-in-Motion Mobile Computing	10-23	34
Age	Older Adults and the Internet	11-5	35
	Web Design Guidelines for Older Adults	11-9	36
	Effect of Age on Web Browsing and Searching	11-20	39
	Older Adults Usability Judgments	11-29	39
Cross Cultural	Cross-cultural Differences in Metaphors & Organization	12-7	40
	Online Shopping Behavior: Influencing Factors	12-13	40
Accessibility	Inexpensive Methods to Assess Accessibility	13-6	41
	Using Automatically-Produced Summaries	13-12	42
